

3:15 - 5:00 p.m. Business Meeting  
 There are a number of questions which need to be answered. For instance, what are the purposes and goals of our group? Should we become a society? How should we select officers? What are the reactions to the Judgment/Decision Making Newsletter, and can it be improved? Should we explore the possibility of a journal? What suggestions are there for the next meeting (tentatively scheduled for Minneapolis in November, 1982)? What else should we be doing to advance judgment/decision research?

After brief presentations by each panelist, there will be an opportunity for questions and discussion. (While we would certainly encourage a general discussion of the funding picture, we would request that questions concerning specific research projects be saved for a more appropriate occasion.)
